Information could change due to Covid restrictions – check town website

Note from the Supervisor: This last year has been tough for many of our Residents and businesses due to the ongoing coronavirus. We are grateful to the first responders and health care workers who are helping us through this time. I hope and pray that 2021 will be better for us all. As far as the Town of Wales, we are still financially in very good condition. The Town Officials are dedicated to maintaining the best quality services at the lowest cost possible. In the 2021 budget we have continued for the 11th consecutive year to have no general fund tax, reduce the Highway tax and incurred no debt. In addition, there has been no reduction in the services provided to our Residents. The Town Board is striving to maintain the rural character of our community, as we are being challenged with outside pressure for development. We will continue to do everything legally possible to keep Wales the great community we all love and cherish. I encourage our Residents to become involved and participate in our government. Your input is valuable for the Board members to properly represent you. Please, if you have any questions, concerns, or ideas, contact any Board member or me, thank you. Sincerely, Rickey Venditti
